SUMMARY

I am a Full Stack Developer with a strong track record in building scalable ERP web applications utilizing technologies like ReactJS, C#, and SQL Server. My expertise spans REST API integration and database optimization, complemented by agile methodologies. I am adept at learning rapidly and implementing modern front-end development practices to create intuitive user experiences

EXPERIENCE

.NET Full Stack Developer

GreenTop Information Technology

📅 02/2025 - Present

- A company focused on information technology and solutions
- Developed and maintained ERP-based web application modules using ReactJS, JavaScript/TypeScript, and Material UI
  - Handled REST API integration, dynamic data binding, API load balancing and component-based UI design
  - Implemented unit testing for React components to ensure functionality and performances
  - Collaborated with backend teams and contributed to backend logic using C# (.NET and stored procedures in SQL Server
  - Used Microsoft Visual SourceSafe VSS for version control and team collaboration
  - Worked in an agile environment, participating in sprint planning and team reviews

  - Gained exposure to industry practices such as version control (Git), Agile, and deployment basics

EDUCATION

B.E. Computer Science and Engineering

Bethlahem Institute of Engineering

CGPA: 8.31

📅 08/2020 - 05/2024      📍 Karungal

Higher Secondary & Secondary Education

Sree Devi Girl's Higher Secondary School

📅 04/2017 - 05/2020      📍 Kollemcode

CERTIFICATION

- Essential of Python – CADD
- Python Full Stack Development – PySpider's

KEY ACHIEVEMENTS

- **Project Expo Winner**  
"Dry and Wet Waste Segregation" project won Project Expo

- **Technical Quiz & Connection Competition Winner**  
Achieved First Place in Technical Quiz & Connection Competition

- **Smart India Hackathon – IoT based Project Proposal**  
Recognition for IoT-based Project Proposal in Smart India Hackathon

SKILLS

Frontend

- ReactJS • JavaScript • TypeScript • HTML • CSS
- Material UI • Bootstrap • Tailwind • React Router
- React Hooks

Backend

- C# • .NET • Entity Framework • LINQ • REST APIs

Database

- SQL • SQL Server • Stored Procedures

Python Stack

- Python • Django

Tools & Other

- Git • Agile • Version Control • Unit Testing

PROJECTS

Organic Products Website UI

- Frontend Development for an organic products website
- Designed and developed a modern and responsive user interface for an organic products website using ReactJS. Focused on clean design, component reusability, and intuitive user experience

To-Do List Application

- Development of a To-Do List Application using Django and React
- Built CRUD functionality with user authentication and REST APIs
